

Dhruv Rathee Corrections

Below is a list of known errors and mistakes identified in Dhruv Rathee's videos. This initiative aims to enhance transparency and ensure that every statement in the videos is accurate and factually reliable, allowing viewers, especially students, to trust the content with confidence. Please note that only videos released after 1st January 2024, have been reviewed for these errors currently.

#	Title	Timestamp	Description	Type
#704	Trump's Tariff War Explained	9:54	Dhruv says that American goods imported by China are \$439 billion. It is actually the opposite, this is the value of Chinese goods imported by America, as the source says.	Speaking
#703	Why India's Air is So Deadly	2:44	A Peruvian city has been wrongly highlighted as an Indian one	Editing
#703	Why India's Air is So Deadly	15:48	The word "Emissions" has been wrongly spelled on the screen	Editing
#693	Reality of Nathuram Godse	19:14	The clock on screen as 4:30 AM, it should be 4:30 PM instead	Editing
#671	NASA's Search for Aliens	1:50	153.8 Billion mi = 24.7 Billion km is shown on screen. However it should say 15.38 Billion mi. The decimal point has been wrongly placed.	Editing
#669	Iran vs Israel	7:52	Hypersonic is 5x the speed of the sound, Dhruv's statement did not specify this. It only said more than speed of sound.	Speaking

#	Title	Timestamp	Description	Type
#661	The Conspiracy Against Vinesh Phogat	17:41	A green tick was shown over Vinesh Phogat for a match she lost. The green tick should have been over her opponent.	Editing
#660	Will this Asteroid Destroy Earth in 2038?	1:26	Just before the intro ends, there are exactly two frames of black screen with the text 'Intro'	Editing
#657	My Final Reply to Godi Youtubers	23:31	Outdated information on the number of Israelis killed in the Hamas Attack. The data point was 6 months old at its time.	Research
#629	How to Save your Eyes from Spectacles Naturally?	4:38	The animation shown is incorrectly showing ocular eye muscles as ciliary muscles. The ciliary muscles are actually in the eyeball itself.	Editing
